# Project 2: Collection

research

very minimal
clean
simple
very effective

proposal

The portfolio website will inlcude a home page, an about page, a page with my work (6-8 projects), and a contact page. I plan to use my branding and graphic design work to include in the site.

goals

Goals are to create a very clean and aesthetically pleasing platform to present to my audience. The site will reflect my aesthetic and my work, but will be focused so it does not lose consistency.

audience

The audience for the porfolio website includes possible employers, colleagues, and potential clients.
